

AmazaCart Greet Visitor Module

UserGuide

Introduction

AmazaCart **GreetVisitor** add-on module is created to enhance the personality of your site. It allows you to greet all customers by their names. When the **GreetVisitor** module is activated the customers who logged in recently will see this greeting message when they return to the site.

Administrator Zone

Configure the way the module will greet customers returning to your site.

Select the 'Template editor' section in the 'Look and Feel' menu. The first template in the list is now a 'Greet visitor message'. Modify the template if you need, using HTML tags and click **'Update templates'** when you are done.

Editing the 'Greet visitor message' template

Customer Zone

When a customer who logged in recently returns to your site, he sees a message, greeting them by name. There is also a link customers can click to log out of the account if they have been identified incorrectly.

The **GreetVisitor** add-module recognizes customers by a cookie stored in the users' browsers for 180 days. If a customer deletes the cookies, the **GreetVisitor** module will be unable to recognize them.
